10.0 INTRODUCTION
The D-Day folio series consists of four separate folio games, each covering a portion of the Normandy campaign, from the initial landings to the breakout. Each game turn (GT) represents approximately two days and each hex measures 2.5 miles across. All games use the Fire & Movement System Rules and provide exclusive rules for each scenario. The four games can be combined into one game that covers the entire Normandy campaign.

10.1 Scenario Boundary
Use the D-Day: Beach to Bocage/Landing and Linkup map only. No unit of either side may be set up or move west of the Douve River/Taute River (the river coursing from hex 2108 to 0805) or west of the line of hexes; 0705, 0604, 0504, 0404, 0304, 0204, 0104.. Important: Even though, not shown on the map, bridges are assumed to exist across rivers when two city hexes are separated by a river hexside.

Map Errata: Terrain Key, last sentence; rail should read trail.

10.2 Scenario Length & First Player
The scenario begins on GT 1 and ends on GT 17. The Allied player is first player in all scenarios.

10.3 Unit Types
Many of the mobile units represented in the game are composite units representing a combination of tank/panzer, mechanized or motorized infantry and various other supporting arms.
- Parachute Infantry
- Glider Infantry
- Ranger/Commando
- Mechanized (these units represent a composite unit containing tanks/panzer, mechanized/motorized infantry and various supporting arms)
- Self-propelled anti-tank/assault gun (AT)
- Motorized Anti-Aircraft (AA/Flak)
- Tank/panzer

10.4 Counter Abbreviations
Not all of the below abbreviations appear in each D-Day folio game:
- Cdo: Commando
- CC: Combat Command
- Deut: Deutschland Regiment
- Fuh: Der Fuhrer Regiment
- GA: Guards Armored
- Rgr: Ranger
- Sch: Schutze
- SS: Schutzstaffel
- R: Reserve

11.0 SCENARIO SET UP
The German player conducts his set up first. The German player secretly records the position of the 5 at-start units (11.1.1). At least two of the units must be set up adjacent to (but not in) an Omaha beach hex. (hex 2318, 2319, 2219, 2120, 2121, and 2122). All other German at-start units may be set up in any non-beach hex in the playable area.

Important: Even though, not shown on the map, bridges are assumed to exist across rivers when two city hexes are separated by a river hexside.

Exception: German units cannot be placed in hex 2417 (Pointe Du Hoc).

After the Allied player has placed his assault units on his beach landing hexes (11.2.1), the German player reveals his set up hexes and places the designated units onto the map.

11.1 German Details
11.1.1 German At Start Units
352/352 Self-Propelled AT Battalion. 914/352, 915/352 and 916/352 Infantry Regiments. 1 Motorized AA Regiment.

11.1.2 German Reinforcements
Most German units must arrive via the south edge of the map via any hexes not occupied by any enemy unit, not within EZOC, and not west of Marigny. If possible, they must arrive during the turn indicated. If a unit is unable to arrive due to the presence of enemy units or EZOC its arrival is delayed until it can legally arrive. Units may move up to their full MA on the turn of arrival unless playing the campaign game and 14.1 applies. Units entering the map must (if applicable) pay the cost of any hexside terrain as they enter their first hex.

GT 1: Sch/30 Infantry Regiment (arrives on hex 1005).
GT 4: 983/275, 984/275 and 985/275 Infantry Regiments, 709/275 Self-Propelled AT Battalion

11.1.3 German Replacements
The German side does not receive replacements.
11.1.4 German Support Fire Markers
The German player is allotted the following
15 support fire markers each GT. One or
two markers are drawn randomly for each
bombardment or combat (8.1 & 8.2.1).
+1 × 1 +2 × 2 +3 × 2 +4 × 2
+5 × 2 +6 × 3 +8 × 2 +9 × 1
• Place them in one draw cup. One or two
markers are drawn randomly for each
bombardment or combat (8.1 & 8.2.1).

Important: There are two support fire markers
titled Achtung! Minen (Mines). If the German
player randomly draws those markers, they
may be used for that combat (but not during
bombardment) or be put aside (the German
player may randomly draw another marker). The
German player may, in addition to the normal
allotment, place the mines markers in support of
any ground attack or defense during any Combat
Phase that GT. The markers are returned to the
draw cup at the end of the GT if not used.
• All German support fire markers have a
bombardment range of two (counted from a
friendly occupied hex).
• The German player must randomly
eliminate one German support fire marker
from his allotment the game turn following the
Allied capture of each of the three
following locations:
Treviers [1718]
Isigny (the Allies must capture both hexes
1811/1911)
Caumont [0421]
• If any such city hex is subsequently
recaptured by the Germans, the German
player does not receive his eliminated
support fire marker again.

Note: The German player may be required to
eliminate one support fire marker due to the
outcome of the Pointe Du Hoc ranger attack
(11.2.3).

11.2 Allied Details
There is a special amphibious landing sequence.
Prior to starting GT 1, the Allied player conducts
11.2.1, 11.2.2 and 11.2.3 in the order given.

11.2.1 Amphibious Landings
1) The Allied player must place the Omaha
Beachhead markers in any of the Omaha Beach
hexes (hex 2318, 2319, 2219, 2120, 2121, and 2122).
• He is not required to place all markers and
only one marker may be placed in any one
hex. Markers that are not placed during setup
cannot be placed at a later time.
• These markers designate the beach landing
hexes and will serve as supply sources and
reinforcement hexes during the game.

Important: Additional beachhead markers
cannot be placed after this step.
• Beachhead markers are removed from the
map if, at any time, a German unit occupies
the hex.
2) The Allied player places all units of the U.S.
1st and 29th Infantry Divisions (total of six units)
in any of the designated beach landing hexes.
Any units unable to be placed due to stacking
limits will enter as reinforcements on GT 2.
• The Allied player may stack up to three units
in any beach landing hex.
• Units may only remain stacked together so
long as they occupy that same beach landing
hex; once a unit exits that beach landing hex, it
may not be placed with any unit again for the
duration of the scenario.
• When a unit is placed in a beach landing hex,
its movement is ended it may not move during
GT 1. The only action allowed after landing is
the ranger assault and beach assault combat
(11.2.3). Mobile units are not eligible to move
or conduct combat in the ensuing Mobile
Movement and Mobile Combat Phases (this is
an exception to 11.2.4).
3) After placement of all amphibious landing
units, remove all beachhead markers that do not
have Allied units stacked with them.
4) The German player now places his at-start
units on the map in the locations he recorded
per 11.1.1.

11.2.2 Airborne Landings
This section is only used in the Utah and Sword
folio games, or in campaign games using those
folios. In the latter case, use the rule 11.2.2
included with those games.

11.2.3 Beach Assaults
1) Place the 2 Ranger Battalion in hex 2417 and
resolve the Pointe Du Hoc assault. Roll 1d6 and
immediately implement the below results.
• Ranger unit is eliminated.
• Ranger unit is reduced. It cannot move this
game turn.
• Ranger unit is reduced. It may move one hex.
• Ranger unit is reduced. It may move one hex.
• Eliminate one German +6 support fire marker.
• Ranger unit may move one hex. Permanently eliminate one German +6
support fire marker.

Important: Ranger units ignore EZOC (6.0) for all
purposes throughout the game.
• Beach assaults occur within beach hexes
occupied by Allied units. By game design, no
beach hexes are occupied by German units
at setup.
• Both sides apply support fire markers normally.
In addition, the Allied player may apply naval
gunfire support (11.2.7).
• If the beach landing hex is in the ZOC of
at least one German unit, the combat is
conducted using the “Beach Assault within
EZOC” line on the CRT.
• If the beach landing hex is not in the ZOC of a
German unit, use the “Beach Assault not in
EZOC” line on the CRT.
• In both of the above cases, the combat
differential is determined using a defense
strength of zero.
• The Allied player must automatically reduce
all assaulting units if the combat result
requires a retreat (D2 or D3).
• If all Allied units are eliminated, the
beachhead marker is permanently removed
from play and that hex cannot be used to land
reinforcements or provide supply.

Important: If the German player conducts a
bombardment against a beach landing hex
and there is more than one Allied unit in the
hex, the German player selects one unit as the
target of the bombardment. Other units in the
hex are ignored and are not affected by the
bombardment result.
11.2.4 Allied Reinforcements
After GT 1, Allied reinforcements are placed on available beach landing hexes containing a beachhead marker at the end of the Allied Movement Phase. They cannot move any further that movement phase. However, they are eligible to attack during the ensuing Combat Phase.

**Exception:** Mobile units (see below).

- **GT 2:** 9/2, 23/2, and 38/2 Infantry Regiments. CCA/2, CCB/2, and CCR/2 Mechanized Regiments.
- **GT 3:** 117/30, 119/30, and 120/30 Infantry Regiments.
- **GT 7:** 331/83, 330/83, and 329/83 Infantry Regiments.
- **GT 10:** CCA/3, CCB/3, and CCR/3 Mechanized Regiments.
- **GT 16:** 134/35, 137/35 and 320/35 Infantry Regiments.
- **Beach landing hexes** have a stacking limit of three units.

**Important:** Except when conducting beach assault combat, no more than one unit in the stack can attack an enemy occupied hex; however, each unit could attack different adjacent enemy occupied hexes. If attacked while stacked, the Allied player must select one unit to defend the hex. All other units are ignored and are not subject to any combat results.

- Allied units cannot be placed in beach landing hexes in an EZOC and not currently occupied by an Allied unit (this does not apply on GT 1).
- Mobile units that land during the current Movement Phase may move normally during the Mobile Movement Phase (after GT 1) and if they did not conduct combat during the Combat Phase may attack during the Mobile Combat Phase.

11.2.5 Allied Replacements
The Allied side receives replacement points. Each replacement point allows the Allied player to rebuild one reduced unit of the type given.

- **Beginning on GT 2,** (during the Support Fire Marker Phase) the Allied side receives one leg unit replacement point each GT. The replacement point may be used to rebuild one reduced leg unit on the map. The leg unit must be in supply and it may be in an EZOC.
- **Beginning on GT 3,** the Allies receive one mobile unit replacement point each odd numbered GT (GT 3, 5, 7 etc.). The replacement point may be used to rebuild one reduced mobile unit on the map. The unit must be in supply and it may be in an EZOC.

**Replacement points** are distributed during the Support Fire Marker Phase and must be used the GT they are received; if not used they are lost. They cannot be carried over to the next GT.

11.2.6 Allied Support Fire Markers
The Allied player is allotted the following 25 support fire markers each GT. System rules 7.0 and 8.0 apply with the following exceptions.

- **+2 x 3**
- **+3 x 3**
- **+4 x 2**
- **+5 x 1**
- **+6 x 6**
- **+7 x 3**
- **+8 x 4**
- **+9 x 2**
- **+10 x 1**

Place all markers not marked with an aircraft icon in one draw cup and all markers with an aircraft in a second draw cup.

- **The Allied player is free to randomly draw from either cup when supporting ground combat or bombardment.**
- **Allied support fire markers not marked with an aircraft icon** have a bombardment range of two (counted from a friendly occupied hex). Allied support fire markers showing an aircraft icon have unlimited range (they may conduct a bombardment attack against any enemy occupied hex).  

**Note:** If playing a campaign game, **U.S. support fire markers may not be used to support combat involving Commonwealth units, or vice versa.**

11.2.7 Allied Naval Gunfire Support
In addition to the support fire markers listed above, the Allied player receives four +7 naval gunfire support markers (turret icon).

- **Naval gunfire support markers** are not placed in the draw cup.
- **During the first GT only,** the Allied player can apply naval gunfire support markers to any beach assault combat. They count against the two-marker maximum.
- **Whether used or not,** naval gunfire support markers are removed from the game at the end of GT 1.

12.0 SUPPLY
All Allied units must be in supply to avoid becoming reduced.

- **Supply status** is determined at the end of the Allied player turn.
- **An Allied unit** is in supply if it can trace an uninterrupted path of hexes from itself to any beach landing hex that contains a beachhead marker. This path of hexes can be of any length.
- **The path cannot enter** an enemy occupied hex.
- **The path can enter or exit** a hex in an EZOC, but cannot do both (i.e., move through a hex in an EZOC). This is true even if the hex in an EZOC is occupied by a friendly unit.
- **If an Allied unit** cannot trace the above line of supply, it is immediately reduced, or eliminated if already reduced.

**Exception:** An Allied unit occupying a beach landing hex is automatically in supply.

**Exception:** Ranger units are not required to trace supply and are not affected by the above supply rules.

13.0 VICTORY CONDITIONS
**German Sudden Death Victory:** If there are no beach landing hexes available to the Allied player at the end of any GT, the game immediately ends, and the German player automatically achieves a strategic victory.

**End Game German Victory:** If, at the end of the game the Allied player has not met his victory conditions, the German player has won an operational victory.

**Allied Victory:** The Allied player must capture the following locations by the end of GT 17.

- **Treviers** (hex 1718)
- **Isigny** (hexes 1811 and 1911)
- **Caumont** (hex 0421)

The Allied player must also have a minimum of two units adjacent to any of the St Lo city hexes (0608, 0609 and 0709).

**Important:** To capture one of the above locations, the Allied player must occupy or have been the last side to occupy the location. The location must be able to trace a line of supply in accordance with 12.0.
14.0 CAMPAIGN GAME
The campaign game can be played using both
US or both Commonwealth scenarios only, on a single map; or a combination of all four
D-Day folio games (Landing and Linkup, Beach to Bocage, Across the Orne, and On to Caen) together as a single, larger, simultaneous game.
• If playing all 4 games together, the two folio
maps (western and eastern map) must be mated up side by side so that both can be
played together.
• If playing a map campaign game the Allies receive the following replacements:
US:
  Beginning GT 2: 2 leg unit replacements
each GT.
  GT 3: 1 mobile unit replacement.
  Beginning GT 5: 2 mobile unit replacements
every odd numbered GT.
CW:
  Beginning GT 2: 2 leg unit replacement
each even numbered GT.
  Beginning GT 3: 2 mobile unit replacements
each odd numbered GT.
• The set up and game rules remain unchanged
for each of the individual scenarios except for the following:
  a) Scenario boundaries are not in effect; however, the US and Commonwealth forces are limited to operating on a single map (US forces on the west map, Commonwealth forces on the east map). German forces may operate freely on either map.
  b) Allied units arriving on GT 1 (assault units) must arrive at their designated beach areas on a beach hex containing a beachhead marker. Allied reinforcements arriving on GT 2 and after may arrive at any beach area within their assigned map (west map for US and east map for CW) as long as the hex contains a beachhead marker.
  c) Scenario victory conditions are not used.
  d) The campaign game may be extended beyond the GT limits for the scenario.
  e) The German player maintains one draw cup containing all German support fire markers.
  f) The Allied side must maintain two sets of draw cups, one for US forces and one for Commonwealth forces. Each nationality combines all its support fire markers into two draw cups (one for those with aircraft icons and one for all others). See 11.2.6. Support fire markers including naval gun and aircraft markers of one nationality cannot be used to support units of the other.
  g) The Allied player receives all replacements noted for each scenario.

14.1 Weather
Beginning on GT 2, the German player must roll 1d6 to determine current weather at the beginning of each GT. If the result of the die roll is six, inclement weather is in effect for the current GT. Inclement weather has the following effects:
• The MA of all units of both sides is halved (round up). This does not affect advance or retreat after combat.
• The Allied side cannot use aircraft (with aircraft icons) during the current GT. Place these markers aside for this GT.
• Prior to placing the remaining support fire markers in their respective draw cups, both sides roll 1d6. The result is the total number of support fire markers that randomly picked and then are not available during the current GT.
Optional: Players can decide to use the weather rules when playing an individual scenario.

14.2 Length of Campaign Game
The campaign game is played for the duration of 17 GTs. At the end of GT 17, if the Allied player has not met his victory conditions(14.3), the Allied player counts the number of cities (not city hexes) captured. Each named city (no matter how many hexes) counts as one city. The Allied player then subtracts the number of captured cities from the number of cities on the portion of the map being used:
  US campaign: 7
  UK campaign: 10
  Combined campaign: 17
The result, is the number of GTs that the game is extended. No matter the result the game never extends beyond GT 25.
Important: To capture one of the above locations, the Allied player must occupy or have been the last side to occupy the location. The location must be able to trace a line of supply in accordance with 12.0.
• The below additional Allied reinforcements appear if the game extends to that game turn.
  Turn 24: 112/28, 110/28, and 109/28
  Infantry Regiments.

14.3 Victory Conditions
German Sudden Death Victory: If there are no beach landing hexes available to the Allied player at the end of any GT, the game immediately ends and the German player automatically achieves a strategic victory.
End Game German Victory: If at the end of the game the Allied player has not met his victory conditions, the German player has won an operational victory.
Allied Victory: Victory for either the one-map or two-map campaign games is contingent on the capture of city (not town) hexes that are printed on the map(s) in use.
Important: Count each individual hex containing a city symbol.
  a) To win a one map campaign game, the Allied player must capture any 7 city hexes on the map.
  b) To win the combined two map campaign game, the Allied player must capture any 21 city hexes across the combined maps.

Important: To capture one of the above locations, the Allied player must occupy or have been the last side to occupy the location. The location must be able to trace a line of supply in accordance with 12.0.

15.0 OPTIONAL
GERMAN AA/FLAK
This rule can be used in any scenario or campaign game.
If an Allied support fire marker with an aircraft icon is used to support a ground combat, or conduct bombardment, in or adjacent to a hex that contains a German AA/Flak unit, the support strength of the aircraft support fire marker is halved (round up).
